

Theme song

Lyrics and Music by
Jim Orange

"NEWARK+PLUS"

Up and down and through the town
Newark is on its way,
The people's frowns have been replaced
With smiles and joyous sounds

Music and love is in the Air
its a good thing I declare
Newark going down No!
That's not true
We got a lot of work to do

Refrain So hi everybody
I hope it's here to stay
Togetherness is what we need
To make a better place

Up and around and through the town
People going to and fro
Communication is what we need to put us in the know

When we learn what Newark's about
We'll stand up and shout
We'll support it to fit our needs
that's without a doubt

Refrain So hi everybody
I hope it's here to stay
Togetherness is what we need
To make a better place

As backward as Newark might seem
To be it's the hippest city around
Where we go, many will follow
Set examples for them to see

When walking down the streets of Newark
We extend a hand to greet,
Brotherhood is flourishing
That you just can't beat

Refrain So hi everybody
I hope it's here to stay
Togetherness is what we need
To make a better place
